The charges specified below are additional to that of the main talk.

Engage younger congregation members:

Maximize Udi's stay with supplemental programs for the younger audiences in your congregation.

All programs have been adapted to students from elementary school ages up to high school, in collaboration with "Makom", the Jewish agency's educational branch.

Additional programs would take place on the same day as the main event.

Engage new campus audiences:

Extend your reach on campus beyond Hillel- share varied Israeli content on the same day of the main event with people who might otherwise not be exposed to it.

Inter-departmental collaborations is one of the most powerful tools to significantly increase exposure to Israel and the talks on campus. Have Udi as a guest lecturer in other departments such as Photography, International Relations, Environmental Science, etc. Let's brainstorm together about on-campus collaborations! Programs are tailor-made for the intended class.

Photography workshops and lectures:

Engage your audience with a fun and interactive photographic workshop! Any kind of photographic tool is welcomed, from smartphones to proper cameras. Beginner workshops are aimed to open participants' minds to a fresh view of their surroundings and give them easy-to-use tools to do so. More advanced workshops go over the fundamentals of visual storytelling and provide participants with tools and techniques to help them share their unique voice in the world.

The workshops are 1.5 hours. Please inquire if you're interested in longer and more extensive workshops.
